Mr Zachary Bowin
2320 Warring St
Berkeley, CA 94720

Dear Mr. Bowin

A request was received from you advisor Stephen Rosenbaum for reconsideration of the Interim Suspension issued to you on December 14, 2009 and the subsequent decisions of the hearing panel dated December 18, 2009.

The panel made the following modifications to the Interim Suspension:

- 1) All restrictions of associations with University faculty, staff and students were lifted, with the qualification that student activities on campus be limited to academically related ones; the panel agreed to accommodate collegial activities among friends in the definition of academic student activities but not organized protest meetings;
- 2) All restrictions on electronic communication were lifted, to allow pursuit of essential academic activities, including completion of an outstanding assignment (due today, Dec 18), fall final exams, and enrollment in spring semester courses;
- 3) Using the UC Berkeley's Emergency Area map for reference, initial restrictions on access to the campus were reduced to preclude area 1, with Hearst Street added as an artificial northern boundary, and area 5, with Oxford and Hearst Streets added as northern and western boundaries.

After further review of the remaining restrictions (#1 and #3), I have decided to lift the Interim Suspension effective immediately. No final determination regarding the facts of this matter or any alleged violations of University policy has been made under this decision. Such determination is being held in abeyance until the student disciplinary process has concluded.

Sincerely,

Christina Gonzales
Associate Dean
