Steve,

In addition to your email below, email of 1/14/10 with an attached letter, and voic message of 1/14/10. This email serves as a response to all three communications.

To clarify, a hearing on the interim suspension has already been held on December 17, 2009. As you are aware the interim suspension was modified. The modification to the interim suspension will remain in effect pending resolution of the conduct process. There are no appeals or other hearings allowed under the Code of Student Conduct to review the interim suspension. I will be working with Mr. Bowin and his academic department to make appropriate modifications to his access to campus should he be enrolled in classes that are scheduled to meet in buildings where he is currently prohibited.

The first step of the conduct process would be for Mr. Bowin and myself to meet, fully discuss the conduct process and begin discussion around the incident. Mr. Bowin may contact Student Conduct and Community Standards at 643-9069 to schedule a appointment.

At this time I am still gathering information regarding the incident that occurred and the allegations of violation of the Code of Student Conduct stand.

I hope this information provides clarity around the conduct process and next steps.

Sincerely,

Susan P. Trageser
Assistant Dean of Students and Director
Center for Student Conduct and Community Standards
Campus Life and Leadership
University of California, Berkeley
